Yesterday the American and New-York News Companies bought of the various morning papers as follows:

	American News Co.	New-York News Co.
<i>Herald</i> .....	12,000	5,125
<i>TRIBUNE</i> .....	10,200	3,600
<i>Times</i> .....	3,800	2,500
	26,000	11,225

It will be seen that the American News Company bought considerably more **TRIBUNE**s than it did **World**s and **Times** put together, and that the New York News Company also bought more **TRIBUNE**s than it did **World**s and **Times** put together. This is about a fair average comparison of the relative purchases for some months past. There has been no time this year in which the daily circulation of **THE TRIBUNE** was not equal to the combined daily circulations of **The World** and **Times**, in which case, semi-daily circulation was not considered.

We the undersigned have examined the books of THE TIMES, the Foreman of its Press Room, the daily reports, etc., and are entirely satisfied, and do certify that the entire circulation of THE TIMES, DURING the month of March, 1900, was
